Door Styles & Finishes

Custom cabinets designed for life.

Our sophisticated products are domestically produced at our modern manufacturing facility to deliver high-quality kitchens finished faster. We innovate through our processes by sourcing superior raw materials, continuously developing new products, and investing in state-of-the-art technologies and machinery. Our variety of door styles and finishes will complement any design style. From traditional to modern, to farmhouse and industrial — our kitchens are designed for life.

Shift

Our versatile woodgrains create a dynamic interest through their coloring, texture, and pattern. The popular look transcends design styles and trends with our finish and door style versatility, including the option of vertical or horizontal grain direction. All cabinet doors are expertly manufactured to ensure color, surface, and core qualities are consistent. The Shift Series is currently available in 13 color options.

Rustic Silver Oak

Reflection

Make a statement with our high-gloss series that blends the best of luxury and durability. The sleek style creates an elegant feel that captures modern European design perfectly. It's also the most scratch-resistant acrylic available and has a remarkable stain and chemical resistance so your kitchen will look great for years to come. The eye-catching surface is currently available in 22 color finishes.

“Design is not just what it looks like
and feels like. Design is how it works.”

Steve Jobs

“

“Simplicity is
the ultimate
sophistication.”

Leonardo da Vinci

Optimat

Smooth to the touch, our matte series creates a stunning look and feel that adds a level of sophistication to any kitchen aesthetic. The anti-fingerprint acrylic absorbs light while being highly scratch and chemical resistant so the chic surface will look good well into the future. Optimat is currently available in 14 color finishes.
